◇ "The level of effort to implement Lawson has been sizable. We have had a number of Lawson consultants assisting in the process—ranging from project coordinators to application specialists to technical specialists."

"What was lacking was anybody that had the knowledge and experience to put it all together."

"John Henley of Decision Analytics has done that for us."

◇ "His knowledge of Lawson apps and how they integrate, as well as his expertise in all the supporting technologies, has proven invaluable in our implementation."

◇ "John is the 'go-to' guy whenever we have problems or questions— he has always come through for us with a solution. "

-- Bob Hillier, Director, Information Systems, Vinnell Corporation, A TRW Company

Vinnell Corporation is a recognized leader in facilities operation and maintenance, military training, educational and vocational training, and logistics support in the United States and overseas. Since its modest beginnings during the Great Depression, Vinnell has successfully completed projects on 5 continents and in over 50 countries for a variety of government and commercial customers.

Visit Vinnell's website at www.vinnell.com.

John Henley has over 15 years of consulting experience in the IT industry--spanning multiple industries, including healthcare, government contracting and professional services. He holds an undergraduate Business Administration degree from James Madison University and a Masters in Information Systems from George Mason University. He worked for one of the largest software companies in the world before founding Decision Analytics in 1990. Decision Analytics, based in Arlington, Virginia, provides technology consulting and software development services, with a primary focus on Lawson Software products. Reach John via email at
